Subject: Fw: NO! to SFIG Request for No-Action Relief for Securitization Vehicles from Variation Margin Compliance

Dear Ms. Orol,

Today, I filed a report with the Moody's Integrity Hotline regarding the erroneous and knowingly inflated ratings of all parties to an uncleared swap with a flip clause around the world.

I cited Moody's Corporation CEO Ray McDaniel as the employee responsible for the erroneous and knowingly inflated ratings.

I cited my reports on these erroneous and knowingly inflated ratings that I submitted to Moody's and the SEC from 2011 to the present date.

I cited my having reported these erroneous and knowingly inflated ratings to the CFTC yesterday.

I ask that SEC Chairman Clayton recuse himself from all issues pertaining to Moody's Corporation and subsidiaries. His former firm Sullivan & Cromwell LLP represented Moody's Corporation and subsidiaries in the settlement with the US DoJ, state attorneys general and attorney general of the District of Columbia of 13 January 2017.

I have posted my email of 7 August 2017 immediately below on my LinkedIn profile.

I will also post this email.

Best regards,

Bill Harrington
